

# Hairstyling & Makeup

As part of our 'Children' package we offer complimentary hairstyling and makeup. Tundra and Kristen are both qualified and use a range of professional products. Whether it's the tiniest amount of styling or something more significant, the results of their work will make a big difference to finish of your images.

## Hairstyling

Urban, funky, classic, beautiful braiding or curls galore. Tundra has done it all! If you can let us know ahead of time the style that your child likes we can accommodate almost anything. We allocate 10-30 minutes for styling, dependent on requirements.

We ask that your child/children come with freshly washed and dried hair. Feel free to bring any hair accessories with you, however, if you can't decide which ones to use, bring them all along, we can help you choose.

## Makeup

Light foundation, a touch of mascara, a splash of lip colour and a brushing of bronzer or blush. We recommend minimal makeup just to give your photos a more polished look. If the child is over 12 years, we are happy to pop on something a little heavier (think cute winged liner), however, it's at the parents discretion. Unless it's requested we steer clear of anything resembling a 'pageant face'.
